- Expand your knowledge through ***Herbal Considerations*** boxes that provide information on herbs and complementary and alternative remedies that may be used by patients under their care.
- Prepare for situations that may arise during drug therapy for patients with chronic illnesses, such as diabetes, hypertension, or epilepsy, including issues of polypharmacy through ***Chronic Care Considerations***.
- Master each chapter's key concepts and skills through ***Know Your Drugs*** (matching questions), ***Calculate Medication Dosages*** (dosage calculation questions), and ***Prepare for NCLEX*** (NCLEX-style questions), at the end of each drug chapter.
