Editorial Review

Review

"... an elegant distillation of veterans' testimony which speaks as powerfully to a general as to a specialist readership. Much emerges from strong narrative lines in the book which, without preaching, challenges what many outside the Vietnamese diaspora think they know about the Vietnam War. ... The book has a noteworthy chapter on women's service in the South Vietnamese armed forces and draws on memories of diverse experience across and beyond the span from elite Ranger, Airborne and Marine units to the local-defence elements of the Regional and Popular Forces." - **Australian Outlook (Australian Institute of International Affairs)**

"...welcome addition to the burgeoning literature on the war. ... Nathalie Nguyen's book serves as an important corrective to many of the familiar and damaging allegations." **The Strategist**

Review

"Nathalie Huynh Chau Nguyen has made a major contribution not only to the history of the Vietnam War but also to the history of wars and their aftermath. *South Vietnamese Soldiers* is both a scholarly and an emotive account of those who served in the armed forces of the Republic of Vietnam. Based on extensive interviews with former service personnel, the book recovers an important dimension of the war, too often distorted or completely overlooked in the extensive literature on the war." (Peter Edwards, Official Historian of Australia's Involvement in Southeast Asian Conflicts 1948–1975)

"In a powerful and eloquent book, Nguyen rewrites the South Vietnamese back into their own history and gives them back their voices. This is an important and overdue treatment of the missing dimension of the Vietnam War. Drawing on extensive research and interviews with surviving veterans of the Republic of Vietnam's military, Nguyen restores a critical perspective to the study of the war and offers additional dimensions to our understanding. This often deeply moving study should be read by everyone with an interest in the subject." (Jeffrey Grey, Professor of History, UNSW Canberra at the Australian Defence Force Academy)

From the Inside Flap

South Vietnam lost more than a quarter of a million soldiers in the Vietnam War, and yet the histories of these men?and women?are largely absent from the vast historiography of the conflict. By focusing on oral histories related by 40 veterans from the former Republic of Vietnam Armed Forces, this book breaks new ground, shedding light on an essentially unexplored aspect of the war and giving voice to those who have been voiceless.

The experiences of these former soldiers are examined through detailed firsthand accounts that feature two generations and all branches of the service, including the Women's Armed Forces Corps. Readers will gain insights into the soldiers' early lives, their military service, combat experiences, and friendships forged in wartime. They will also see how life became worse for most in the aftermath of the war as they experienced internment in communist prison camps, discrimination against their families on political grounds, and the dangers inherent in escaping Vietnam, whether by sea or land. Finally, readers will learn how veterans who

saw no choice but to leave their homeland succeeded in rebuilding their lives in new countries and cultures.
