Lauren makes clear the truly universal nature of this movement by drawing into his discussion people and cultures in every part of the globe. In this regard, the book offers particularly remarkable revelations and insights when analyzing the impact of wars and revolutions, non-Western nations, struggles against sexism and racism, liberation movements and decolonization, nongovernmental organizations, and the courage and determination of countless numbers of common men and women who have contributed to the evolution of international human rights.

This new edition incorporates the most recent developments of the International Criminal Court, the arrest of Augusto Pinochet and the trial of Slobodan Milosevic, technology and the Internet, the impact of NGOs like Amnesty International and Human Rights Watch, globalization, terrorism, and the aftermath of the September 11 terrorist attacks.
