### Editorial Review

#### Review

*"I love the format of the strategies, research, standards, applications, and pitfalls?so easy to follow."*

(Deborah Gordon, Teacher 2005-03-30)

*"A great resource for math teachers to fine tune the strategies they are currently using. I wouldn't need much encouragement to recommend it to a colleague who is new to the field and is currently having problems in any of the areas covered in the book."* (Kimberly C. Smith, Teacher 2005-04-12)

*"A unique opportunity to really help new and novice teachers."* (M. Brad Patzer, Teacher 2005-04-16)

*"The strategies are understandable and easy to implement...honest and reality based, not preachy versions of what could be."* (Charles Espalin, Director, School Counseling Program 2005-04-12)

*"For the secondary mathematics teacher, the combination of practical tips confirmed by educational research provides a much-needed addition to our arsenal of instructional tools. Particularly for new teachers, this book is like having a colleague with years of experience always at your side."* (Linda Curtis-Bey, Director of Mathematics 2005-05-31)

#### About the Author

**Alfred S. Posamentier** is professor of mathematics education and dean of the School of Education at the City College of the City University of New York. He has authored and co-authored several resource books in mathematics education for Corwin Press.

### Users Review
