**GIS for Environmental Decision-Making (Innovations in GIS)** From Brand: CRC Press

Environmental applications have long been a core use of GIS. However, the effectiveness of GIS-based methods depends on the decision-making frameworks and contexts within which they are employed. *GIS for Environmental Decision-Making* takes an interdisciplinary look at the capacities of GIS to integrate, analyze, and display data on which decisions must be based. It provides a broad prospective on the current state of GIS for environmental decision-making and emphasizes the importance of matters related to data, analysis, and modeling tools, as well as stakeholder participation.

The book is divided into three sections, which effectively relate to three key aspects of the decision-making process as supported by GIS: data required, tools being developed, and aspects of participation. The first section stresses the ability to integrate data from different sources as a defining characteristic of GIS and illustrates the benefits that this can bring in the context of deriving land-use and other information. The second section discusses a range of issues concerning the use of GIS for suitability mapping and strategic planning exercises, through illustrative examples. The last section of the book focuses on the use of GIS-based techniques to facilitate public participation in decision-making processes. In particular, it provides an overview of developments in this area, concentrating on how GIS, modeling, and 3D landscape visualization techniques are gradually achieving closer integration.

Given the complex challenges presented by global environmental change, *GIS for Environmental Decision-Making* provides a clear illustration of how the use of GIS can make significant contributions to trans-disciplinary initiatives to address environmental problems.

## **Editorial Review**

### **About the Author**

University of East Anglia, Norwich, England, UK University of East Anglia, Norwich, UK

## **Users Review**

### **From reader reviews:**

#### **Enrique Myers:**

The book GIS for Environmental Decision-Making (Innovations in GIS) can give more knowledge and also the precise product information about everything you want. Exactly why must we leave the great thing like a book GIS for Environmental Decision-Making (Innovations in GIS)? A number of you have a different opinion about e-book. But one aim which book can give many information for us. It is absolutely right. Right now, try to closer with your book. Knowledge or information that you take for that, it is possible to give for each other; it is possible to share all of these. Book GIS for Environmental Decision-Making (Innovations in GIS) has simple shape but you know: it has great and massive function for you. You can appearance the enormous world by available and read a book. So it is very wonderful.

#### **Nora Carter:**

This GIS for Environmental Decision-Making (Innovations in GIS) book is not really ordinary book, you have after that it the world is in your hands. The benefit you will get by reading this book will be information inside this guide incredible fresh, you will get information which is getting deeper anyone read a lot of information you will get. That GIS for Environmental Decision-Making (Innovations in GIS) without we understand teach the one who looking at it become critical in imagining and analyzing. Don't end up being worry GIS for Environmental Decision-Making (Innovations in GIS) can bring once you are and not make your carrier space or bookshelves' turn out to be full because you can have it inside your lovely laptop even telephone. This GIS for Environmental Decision-Making (Innovations in GIS) having great arrangement in word along with layout, so you will not really feel uninterested in reading.

#### **Vincent Mireles:**

Typically the book GIS for Environmental Decision-Making (Innovations in GIS) will bring you to the new experience of reading a book. The author style to describe the idea is very unique. In the event you try to find new book you just read, this book very suited to you. The book GIS for Environmental Decision-Making (Innovations in GIS) is much recommended to you to see. You can also get the e-book from your official web site, so you can more easily to read the book.

**Jennifer Williams:**

The book untitled GIS for Environmental Decision-Making (Innovations in GIS) contain a lot of information on the idea. The writer explains the woman idea with easy method. The language is very clear to see all the people, so do certainly not worry, you can easy to read it. The book was published by famous author. The author will take you in the new age of literary works. You can easily read this book because you can please read on your smart phone, or model, so you can read the book within anywhere and anytime. If you want to buy the e-book, you can open up their official web-site as well as order it. Have a nice examine.
