Speed Learning Cartomancy Fortune Telling With Playing Cards (Volume 1) By Julian Moore

"Get this book, learn the system, do cool readings." - David Numen "Julian's work is the best of the bunch in these genres. I have scoured book stores. I only learn from his books and ideas." - John Cesta My latest ebook which teaches the fundamentals of cartomancy is now ready for release. It's similar to my other books in that it's aimed at complete beginners as well as people who've started learning this particular reading discipline but then given up for one reason or another. Like my other books I use a no nonsense approach with lots of memory tips, insights, reviews and exercises over ninety pages to help you get up to speed as quickly as possible and the whole experience is extremely 'hands on'. In fact part of the process involves scribbling on the cards a lot to make sure the basics are implanted in your mind as you go. I'm really hoping that this new book gets some of you on the road to giving proper and interesting readings with cards instead of just thinking about it. There's a lot more information hidden in those fifty-two bits of paper than you probably realise! **REVIEWS** *"I got this yesterday and have started the study and have to say it's quite brilliant. I've read cards of one form or another for 20 years after learning initially from the Joe Riding course but for various reasons I was looking for something to help me sharpen my skills - and this more than does the trick. For anyone who might feel that they'd rather this was on tarot I think it's worth pointing out that when I started doing readings many moons ago a number of clients would tell me of this mystical sounding old man who read from "ordinary cards". It was clear that the impression given to these women was that reading ordinary cards was somehow more skillful and impressive than tarot cards (I guess the pictures on the cards might make it obvious to some astute clients that there are highly visible cues on the cards). Playing card readings rock - and playing cards predate tarot and are thus, in my book, purer and more mysterious than tarot." - David Numen "I purchased this ebook. What a great system. Always in the easily understood clear writing format you'd expect from Julian. This is of a quality you would expect to find in a book store. I have in the past purchased Julian's James Bond Cold Reading book and his Palm Reading book. For me this is one of the best. I find I am more in tune with numbers than the others. I always have a deck of cards and certainly the places I frequent there are cards as well. The fact that you can use a few cards, a few more to create a simple or more complex reading is terrific.*

Make it as long or short as you'd like. Julian's audio book (available for free from his site) is also top notch! Lots of valuable audio files to use while driving or sitting in a Doctor's office. Certainly worth the asking price. If you have any of Julian's other offerings you know what I mean. If you don't have any of Julian's other offerings don't hesitate. His metaphors and memory links make sense and they work." - John Cesta

Editorial Review

About the Author

Julian Moore is a composer, songwriter, music producer, author and mentalist. Interested in all things strange from an early age, his writing took a back seat to his musical endeavours until fairly recently, when he embarked on a writing spree revolving around the practice of giving 'readings' - palmistry, graphology, cartomancy and the pseudo-sciences behind them such as 'cold reading'. Julian is now embarking on a series of novels which should be available in the not too distant future. One involves an adventure with some dogs in a region of India. Another surrounds the haunting of a student pianist. There could be some others that deal with a little girl and her friends who discover some strange abilities. Who knows. In the meantime you can read his current crop of factual books available here and from The Cold Reading Company, or check out his band Georgia Wonder at their website or on YouTube.

Users Review

From reader reviews:

Frank Hall:

In this 21st century, people become competitive in every way. By being competitive today, people have do something to make these individuals survives, being in the middle of typically the crowded place and notice through surrounding.
