**Veterinary Neuroanatomy and Clinical Neurology - Elsevier eBook on VitalSource (Retail Access Card), 4e** By Alexander de Lahunta, Eric N. Glass MS DVM DACVIM (Neurology), Marc Kent DVM BA DACVIM

- Expert authors bring more than 50 years of experience in veterinary neuroanatomy and clinical neurology to this book ? Dr. Alexander DeLahunta and Dr. Eric Glass offer their unique insights from both academic and practitioner perspectives.
- Disease content is presented in a logical case study format with three distinct parts:
  - Description of the disorder
  - Neuroanatomic diagnosis (including how it was determined, the differential diagnosis, and any available ancillary data)
  - Course of the disease (providing final clinical or necropsy diagnosis and a brief discussion of the syndrome)
- More than 600 full-color photographs and line drawings, plus approximately 150 high-quality radiographs, visually reinforce key concepts and assist in reaching accurate diagnoses.
- The book comes with free access to 370 video clips on Cornell University's website that directly correlate to the case studies throughout the book and clearly demonstrate nearly every recognized neurologic disorder.
- High-quality MR images of the brain are presented alongside correlating stained transverse sections for in-depth study and comparison.
- Vivid photos of gross and microscopic lesions clearly illustrate the pathology of many of the disorders presented in the book.

## **Editorial Review**

### **Review**

"The third edition really does cater for everyone; undergraduates, practitioners and specialist neurologists will all find this book an absolute delight. (...) The result is an outstanding combination of neuroanatomy, neuropathology and clinical neurology. A major innovation is the inclusion of text to compliment a series of video clips available for view on a Cornell website. The system works really well, drawing on the authors' vast archive of examples of clinical conditions in all domestic species. There are 382 video clips available, each one with relevant text in the book. (...) The attention to detail in this book is truly impressive and, if the reader wants further information on any topic, there is a comprehensive list of references at the end of each chapter. Much more could be said about this great book but I recommend buying it for oneself; it will be money well-spent."

- The European Journal of Companion Animal Practice, April 2009

## **Users Review**

### **From reader reviews:**

#### **John Tibbs:**

The book Veterinary Neuroanatomy and Clinical Neurology - Elsevier eBook on VitalSource (Retail Access Card), 4e can give more knowledge and also the precise product information about everything you want. So just why must we leave the best thing like a book Veterinary Neuroanatomy and Clinical Neurology - Elsevier eBook on VitalSource (Retail Access Card), 4e? It is good combination right, you still would like to miss it? What kind of hang type is it? Oh come on its mind hangout folks. What? Still don't obtain it, oh come on its named reading friends.

**Christen Arnold:**

As a pupil exactly feel bored to be able to reading. If their teacher expected them to go to the library as well as to make summary for some reserve, they are complained. Just very little students that has reading's spirit or real their interest. They just do what the professor want, like asked to the library. They go to presently there but nothing reading very seriously. Any students feel that looking at is not important, boring and can't see colorful photos on there. Yeah, it is to become complicated. Book is very important to suit your needs. As we know that on this period, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore , this Veterinary Neuroanatomy and Clinical Neurology - Elsevier eBook on VitalSource (Retail Access Card), 4e can make you truly feel more interested to read.

**Denise Wallis:**

What is your hobby? Have you heard which question when you got scholars? We believe that that query was given by teacher to the students. Many kinds of hobby, All people has different hobby. Therefore you know that little person including reading or as studying become their hobby. You have to know that reading is very important along with book as to be the thing. Book is important thing to add you knowledge, except your teacher or lecturer. You discover good news or update in relation to something by book. Numerous books that can you take to be your object. One of them is niagra Veterinary Neuroanatomy and Clinical Neurology - Elsevier eBook on VitalSource (Retail Access Card), 4e.
