## **Editorial Review**

### **Review**

This third edition, enriched with three new chapters, remains an exciting introduction to the premises of social constructionism. As Gergen unfolds, in his own personal style, the ideas of dialogue, co-action and relationship one finds oneself relating to the book in the most engaging way. The book is inspiring for both the newcomer and the experienced pursuer of knowledge-making in constructionist terms.

(Thalia Dragonas)

Ken Gergen has taken all that is good in his second edition of the definitive Invitation to Social Construction, updated it, and made it even smarter. There is no more vibrant and engaging launch point for understanding contemporary social constructionism.
