## **FUNDAMENTALS OF MICROBLADING FOR COSMETIC TATTOOISTS: EYEBROW FEATHERING ESSENTIALS**

Fundamentals of Microblading for Cosmetic Tattooists is an instruction guide for new or developing technicians. Unlike other texts in the permanent make up field, this book focuses solely on the feather eyebrow tattoo or hair stroke methodology.

The sweeping popularity of this technique has created an influx of new tattooists entering the industry. Ensuring that you are well trained in the theory and technique of this process is something that should not be compromised. As skill levels vary largely between technicians, there is a need to provide quality information about what works and what doesn't when feathering. Skillful technicians are more capable, practice with confidence, and operate a successful business in an environment where reputation is critical.

If you are paying thousands of dollars to take 1-2 day microblading courses, consider this book as a very cheap investment in your education. The content has been priced extremely low compared to other resources on the market. This is so that technicians have access to information on minimum standards, thereby maintaining the integrity of our profession.
