Providing a thorough review and synthesis of work on communication skills and skill enhancement, this *Handbook* serves as a comprehensive and contemporary survey of theory and research on social interaction skills. Editors John O. Greene and Brant R. Burleson have brought together preeminent researchers and writers to contribute to this volume, establishing a foundation on which future study and research will build.

The handbook chapters are organized into five major units: general theoretical and methodological issues (models of skill acquisition, methods of skill assessment); fundamental interaction skills (both transfunctional and transcontextual); function-focused skills (informing, persuading, supporting); skills used in management of diverse personal relationships (friendships, romances, marriages); and skills used in varied venues of public and professional life (managing, leading, teaching).

Editorial Review

Review

*The daunting task of usefully illuminating empirically supported strategies for developing new social skills is met at multiple levels by Greene and Burleson's **Handbook of Communication and Social Interaction Skills**....Beyond accomplishing a work that is both scholarly and practical, one major value of Greene and Burleson's handbook is the consistent thoughtfulness with which these impressive contributors engaged in forward skills-thinking, suggesting the stage for future scholarship and pedagogy in social skills research....Readers of this handbook will find that their abilities to understand, teach, and personally enact new relational communication skills will be provoked, enriched, and challenged.*
