Editorial Review

About the Author

Malin Fabbri moved from Sweden to London to study. She earned an MA in Design at Central St. Martin's, but publishing her thesis felt more like a beginning than an end. Malin decided to combine her academic and practical experience and started AlternativePhotography.com in 1999. The website still maintains its origins as a source of information and research for alternative photographic processes and represents almost 400 artists. Malin actively manages the expansion of the site as editor. She researches alternative photographic processes, makes her own prints and runs workshops. Malin has also worked professionally with big media names like Time magazine and CNBC Europe. Malin is the co-author of *Blueprint to cyanotypes and From pinhole to print, the editor of the alternative photography art book Alternative Photography: Art and Artists, Edition I representing 115 artists working in alternative photographic processes, and the author of this book, Anthotypes - Explore the darkroom in your garden and make photographs using plants.*
