### Editorial Review

#### Review

“*Contemporary Debates in Metaphysics* is a terrific book — 18 essays by some of the most distinguished voices in contemporary philosophy which collectively represent and define the state of the art in this ancient discipline. The writing is fresh and clear throughout, accessible to beginners but rigorous enough to satisfy the most exacting specialists. This is no bland survey of the subject: the book is structured as a series of debates, with partisans of opposed positions clashing directly on the page. For those who want to see how contemporary metaphysics is done, there is no better introduction to the subject.”

*Gideon A. Rosen, Princeton University*

“This is an incredibly good collection of original papers about the central problems of metaphysics. I will certainly use the book as a text in my yearly introductory graduate seminar on metaphysics.”

*Peter Van Inwagen, University of Notre Dame*

“Until now we've had to choose between traditional texts, where the author pretends to be arguing with him/herself, and anthologies, where the reader pretends the authors are arguing with each other. This book has genuine focussed exchange between some of the best metaphysicians around. The introduction by Sider is a gem. What a great way to learn metaphysics.”

*Prof. Stephen Yablo, MIT*

“What might one want in a contemporary metaphysics reader? There are plenty of volumes that reprint the 20th century precursors to current debates; no need for another one of those. What would be great is a collection of first-rate essays by leading philosophers which effectively engage the most important issues in the field and give attention not only to the substantive debates but the meta-philosophical questions such as: what is metaphysics and how is it possible? And now we have it: *Contemporary Debates in Metaphysics* does it all.”

*Sally Haslanger, MIT*

“Written with philosophical sophistication . . . .Rewarding and valuable . . . .Teaching papers . . . .It would make a fine . . . and useful resource for the professional philosopher.” *Notre Dame Philosophical Reviews*

#### From the Back Cover

Is personal identity psychological or physical? Determinism and freedom: are they incompatible? Do abstract entities – universals, propositions, and numbers – really exist? *Contemporary Debates in Metaphysics* addresses these and many more of the most contentious issues in the field today.

An introductory essay on the nature of metaphysics prepares the reader for the text's distinctive format – a series of head-to-head debates by eighteen leading professionals in metaphysics. Squaring off on opposite sides of the issues, they debate nine of the deepest and most puzzling topics in contemporary metaphysics.

Contemporary Debates in Metaphysics is an excellent resource for advanced students and professional philosophers alike.

#### About the Author

**Theodore Sider** is Professor of Philosophy at New York University. He is the author of Four-Dimensionalism and (with Earl Conee) Riddles of Existence.

**John Hawthorne** is Waynflete Professor of Metaphysical Philosophy at the University of Oxford. He is the author of Metaphysical Essays, and has published widely in metaphysics, epistemology, philosophy of language, and Leibniz studies.

**Dean W. Zimmerman** is Associate Professor in the Philosophy department at Rutgers University. He is editor of Oxford Studies in Metaphysics, and author of numerous articles in metaphysics and philosophy of religion.

### Users Review

#### From reader reviews:

##### **Donna Vazquez:**

Information is provisions for people to get better life, information presently can get by anyone with everywhere. The information can be a knowledge or any news even a problem.
