XenServer Administration Handbook: Practical Recipes for Successful Deployments By Tim Mackey, J. K. Benedict

Packed with practical advice, this hands-on guide provides valuable information you need to most effectively optimize and manage the XenServer open source virtualization platform. Whether you run a modest installation of a few blades or multiple global enterprise datacenters, this book focuses on the most critical issues you're likely to encounter when designing a XenServer deployment and helps you handle day-to-day management tasks.

Tim Mackey and J.K. Benedict from Citrix Systems, the company that manages XenServer, show you how to design a deployment through best practices, deployment blueprints, and installation guidelines. The book's second part features concise, easy-to-implement recipes for day-to-day management, such as user rights, backup strategies, and hardware maintenance.

- Learn precisely what makes a XenServer work, and how it can host 1000 virtual machines
- Explore the core components of a production XenServer environment
- Investigate several options on how and where to install XenServer
- Examine several factors for "right sizing" your XenServer deployment to fit your needs
- Work with a decision tree to optimize your XenServer deployment design
- Understand how to accommodate guest VM virtualization modes
- Use recipes that help you plan for, obtain, and apply XenServer upgrades

From reader reviews:

Raymond Custer:

Have you spare time for just a day? What do you do when you have much more or little spare time? Sure, you can choose the suitable activity intended for spend your time. Any person spent their particular spare time to take a walk, shopping, or went to typically the Mall. How about open or even read a book allowed XenServer Administration Handbook: Practical Recipes for Successful Deployments? Maybe it is to be best activity for you. You recognize beside you can spend your time with your favorite's book, you can more intelligent than before. Do you agree with it is opinion or you have additional opinion?

Jill Lee:

Reading a publication tends to be new life style in this era globalization. With examining you can get a lot of information that may give you benefit in your life. Along with book everyone in this world can easily share their idea. Textbooks can also inspire a lot of people. Lots of author can inspire their very own reader with their story or their experience. Not only the storyline that share in the textbooks. But also they write about the information about something that you need instance. How to get the good score toefl, or how to teach your young ones, there are many kinds of book that exist now. The authors on earth always try to improve their ability in writing, they also doing some investigation before they write on their book. One of them is this XenServer Administration Handbook: Practical Recipes for Successful Deployments.

Johnny Abel:

The actual book XenServer Administration Handbook: Practical Recipes for Successful Deployments has a lot details on it. So when you make sure to read this book you can get a lot of help. The book was published by the very famous author. The writer makes some research before write this book. This book very easy to read you can get the point easily after scanning this book.

Stephanie Hopkins:

This XenServer Administration Handbook: Practical Recipes for Successful Deployments is great e-book for you because the content that is certainly full of information for you who else always deal with world and get to make decision every minute. This particular book reveal it details accurately using great organize word or we can point out no rambling sentences included. So if you are read that hurriedly you can have whole information in it. Doesn't mean it only provides you with straight forward sentences but tricky core information with beautiful delivering sentences. Having XenServer Administration Handbook: Practical Recipes for Successful Deployments in your hand like keeping the world in your arm, data in it is not ridiculous one particular. We can say that no publication that offer you world with ten or fifteen tiny right but this reserve already do that. So , this is good reading book. Heya Mr. and Mrs. hectic do you still doubt which?
