## What on Earth Is an Atheist By Madalyn Murray O'Hair

This is the first book Madalyn Murray O'Hair ever wrote. It is composed of transcripts of her landmark 1968 Atheist radio broadcasts made under the aegis of the Society of Separationists, the parent organization from which American Atheists Inc. later developed.

This corrected new edition allows you to join Madalyn as she expounds upon an avalanche of theological and political topics: government giveaways of property to churches; the real 'religious foundations' of the United States; the philosophical and historical foundations of Atheism; Atheist thinkers and writers of various epochs; the dozens, not legions, of Christian martyrs put to death in antiquity; errors and absurdities of the Bible; and more.

### **Editorial Review**

#### **About the Author**

Madalyn Murray O'Hair, whom LIFE magazine dubbed "The Most Hated Woman in America," is best remembered for her 1963 landmark case Murray v. Curlett, in which the US Supreme Court ruled in her favor, outlawing forced prayer and Bible reading in the public schools of America. A fighter for reason and a defender of the 'Wall of Separation' between state and church right up until being violently murdered with her family in 1995, even today she continues to be America's best-known Atheist. In the radio broadcast transcripts that comprise this book, we are witness to a master thinker finding her voice.
