We have all seen the type of man who radiates confidence, charisma, and sexual vibrancy. When people interact with this person, they become drawn into him not just because he looks successful in every manner, but because they expect to succeed just by spending time with him. Such men, typically are the greatest leaders in business, the most innovative thinkers in science, and the most skillful and creative in the arts. But what gives these men their spark, lust for life, and successfulness? It is because they have learned to master their own sexual energy and allow it to flow to every aspect of their life.

This book shows the methods to cultivate and harness your sexual energy. Energy that has always been within you, but may have been bottled up, wasted, or simply not properly developed.

Use this ancient and primal force of sexual energy and motivation to achieve literally anything.

- Build Unstoppable Confidence, Self Esteem & Charisma
- Become Overwhelmingly Attractive to Women
- Enjoy Amazing Sex
- Boost Athletic Performance and Health
- Supercharge Creativity
- Tap into Endless Amounts of Energy, Motivation & Drive

The male mind is designed to evolve, to adapt to its surroundings, and also change its surroundings and situation. It is designed to do whatever is needed in order to find a mate and reproduce. Herein is the secret to life and obtaining anything in it. Cultivating sexual desire and harnessing its force will give you unlimited ability to achieve literally anything you want to in life.

This concept of “sexual energy” – The underlying force behind the sex drive is one that is age old. But for some reason is an idea that has been lost, not taught, and even hidden in most cultures. Many cultures and media have turned sex, and sexual desires into something which is put up on a pedestal, something out of reach, and most of all something to be indulged in blindly with no further knowledge or understanding of the matter.

Ideas of harnessing the sexual energies can be found in some modern sub-cultures however. Such ideas of "Sexual Kung Fu" can be found in many eastern teachings such as Yoga, Qi-Gong, Tai-Chi, and Tantra. While in the western literature, similar ideas surface in traditions of religious cults, and Sexual Magick. There is a wealth of information in all of these teachings in fact many of their concepts are shown in this book. But unfortunately most of these ideas tend to drift into religious aspects which are quite esoteric in nature, and lead down paths with many promises, but few real results.

But the truth remains. Male sexual energy – or the “sex drive” is the underlying motive force behind all of Man's greatest accomplishments on this planet. This book is therefore dedicated to helping men to find clear, strong, and efficient ways to understand and harness his sexuality to accomplish anything in life.
