"This book was instrumental in helping me make some difficult choices about our plan for homeschooling. It is so much more than a book of recommendations its a book that will walk you through the process from beginning to end. I felt so overwhelmed by my decision to homeschool all 3 of my boys this year but Cathys 101 top picks really helped me gain clarity and focus on everything thats important about choosing a curriculum. When people tell me that they are thinking about homeschooling their kids, I tell them to read this book NOW so they can understand what they want and need before they have to face the question of what curriculum they should use. I highly recommend this book and will continue to recommend it to anyone who is considering a change in curriculum or just beginning to think about homeschooling. Thank you so much of helping me face this giant! God Bless you Cathy Duffy." --Sandra M., Homeschool Buyers Co-op Member

"Our first attempt at homeschooling was, at best, a dismal success. We used pre-packaged curriculum and only one child out of the three was happy with it. At the end of that year I purchased Cathy's first book but we decided to enroll our children in a Charter school so the book was never opened. After much prayer, we felt that it was necessary to give homeschooling another chance. I pulled out Cathy's book and set to work planning an approach to this school year. Her website was another great resource and on it I found a link to update to the latest version of her book. What a goldmine! We are using curriculum tailored specifically to each child in each subject. While homeschooling still has its difficult moments, I'm happy to say that they are not caused by the curriculum. I'm looking forward to calling this year a success thanks to this book." --- Christina Jay, Homeschool Buyers Co-op Member
