Comparative Health Information Management By Ann Peden

Break into the exciting field of HIM with COMPARATIVE HEALTH INFORMATION MANAGEMENT, 4e! Whether you see yourself working in a hospital, clinic, or office, this text can help you find the ideal career. Chapters explore a variety of settings, including hospitals, ambulatory clinics and medical offices, veterinary practices, home health, long-term care, and correctional facilities, as well as emerging practice areas in professional consulting and cancer registry. Focused on the challenges of managing and protecting the flow of information across sites, this updated text introduces you to the health care system, then walks you through the many HIM roles available to you, infusing discussions with key terms, self-test questions, web links, and illustrations that add meaning to concepts. Features include realistic case studies to help you solve problems, while new "Professional Spotlight" vignettes give you an insider view of actual professionals in their HIM careers.

Editorial Review

Review

"I don't know of any other textbook that covers HIM in various health care settings to the extent this one does. It is comprehensive, consistent in organization, and well written. Very thorough discussion of this care setting is given. I appreciate the details given in the section on documentation. The Reimbursement section is very well detailed. I can't say enough good about the level of useful detail given."

"It is a concise and focused text with valuable assignments and critical thinking questions."

About the Author

Ann Peden is Professor of Health Informatics and Information Management at the University Mississippi Medical Center's School of Health-Related Professions in Jackson, Mississippi. Formerly a member of the Board of the Commission on Accreditation of Health Informatics and Information Management Education (CAHIIIM), Dr. Peden has also served as President of both the Louisiana Medical Record Association and the Mississippi Health Information Management Association. She earned her PhD from the University of Mississippi and an MBA from Louisiana Tech University in Ruston, Louisiana, where she also taught in the health information management programs.

Users Review

From reader reviews:

Kathleen Young:

Are you kind of occupied person, only have 10 as well as 15 minute in your day to upgrading your mind ability or thinking skill actually analytical thinking? Then you have problem with the book when compared with can satisfy your short period of time to read it because all of this time you only find e-book that need more time to be go through. Comparative Health Information Management can be your answer since it can be read by anyone who have those short time problems.

Lula Day:

Many people spending their time period by playing outside along with friends, fun activity with family or just watching TV all day long. You can have new activity to invest your whole day by examining a book. Ugh, you think reading a book can definitely hard because you have to take the book everywhere? It fine you can have the e-book, taking everywhere you want in your Smart phone. Like Comparative Health Information Management which is getting the e-book version. So , why not try out this book? Let's observe.

Thomas Schwan:

In this particular era which is the greater man or woman or who has ability in doing something more are more treasured than other. Do you want to become one among it? It is just simple way to have that. What you should do is just spending your time almost no but quite enough to have a look at some books. One of

the books in the top list in your reading list will be Comparative Health Information Management. This book which is qualified as The Hungry Slopes can get you closer in getting precious person. By looking way up and review this e-book you can get many advantages.

Ann Walsh:

Do you like reading a reserve? Confuse to looking for your preferred book? Or your book seemed to be rare? Why so many query for the book? But just about any people feel that they enjoy for reading. Some people likes reading through, not only science book but also novel and Comparative Health Information Management or even others sources were given understanding for you. After you know how the great a book, you feel wish to read more and more. Science guide was created for teacher or students especially. Those textbooks are helping them to add their knowledge. In some other case, beside science reserve, any other book likes Comparative Health Information Management to make your spare time much more colorful. Many types of book like this one.
