**David Bowie's Low (33 1/3) By Hugo Wilcken**

"One day I blew my nose and half my brains came out."

Los Angeles, 1976. David Bowie is holed up in his Bel-Air mansion, drifting into drug-induced paranoia and confusion. Obsessed with black magic and the Holy Grail, he's built an altar in the living room and keeps his fingernail clippings in the fridge. There are occasional trips out to visit his friend Iggy Pop in a mental institution. His latest album is the cocaine-fuelled Station To Station (Bowie: "I know it was recorded in LA because I read it was"), which welds R&B rhythms to lyrics that mix the occult with a yearning for Europe, after three mad years in the New World.

Bowie has long been haunted by the angst-ridden, emotional work of the Die Brucke movement and the Expressionists. Berlin is their spiritual home, and after a chaotic world tour, Bowie adopts this city as his new sanctuary. Immediately he sets to work on Low, his own expressionist mood-piece.

### Editorial Review

#### Review

"David Bowie's album *Low*, released in 1977, is an inspired high point for the singer/actor/musician/icon, yet the record still fails to generate the attention it deserves. Hugo Wilcken's *Low* will hopefully put an end to the long neglect....his book will captivate Bowie fans and the musically inquisitive looking for a lost gem from a name artist. Fascinating for rock historian types who are drawn in to the never-ending debate of who influenced who, and those that simply want to know the stories behind the songs. Devotees will be anxious to rediscover a forgotten favorite....an absorbing and appealing analysis, thankfully sans the type of mind-numbing prose that often accompanies this type of scrutiny. Once Bowie's long career has concluded *Low* will surely stand as his creative apex, and Hugo Wilcken's book will be its knowing and worthy companion.
