Micro Eco-Farming: Prospering from Backyard to Small Acreage in Partnership with the Earth By Barbara Berst Adams

Microfarms—or small acreage farms—are gaining popularity across the country for their astoundingly high yields and great tasting produce, as well as their profitability. This handbook reveals the secrets of successful micro eco-farming and explains what eco-farmers need to know to start their own small agribusiness. Questions such as *What can be grown?* *How do farmers reach their markets?* and *What sustainable production methods can be used?* are answered in detail and supported by hundreds of real-life examples. A variety of unusual uses for crops are also provided, including producing organic spa products, building an urban greenhouse, creating a heritage rose farm, or cultivating a connoisseur apple orchard. Ecologists, amateur gardeners, farmers, and those interested in sustainable living will enjoy this in-depth look at the spiritually and financially rewarding aspects of this new field.

Editorial Review

Review

"Anyone interested in microfarming, food health, the environment, or the future of agriculture will learn from the success stories and lessons in this lively account." -- William Dietrich, Pulitzer prize-winning environmental journalist and author, *Natural Grace and Northwest Passage*, on micro Eco Farming"

About the Author

The author raised her children on a micro eco-farm and continues to study, research, and write feature articles on sub-acre or small acreage farms across the globe. In this title, she introduces the many possible full or part time ways in which land owners from rural to urban, are earning part time to full time income in an eco-friendly fashion. She is also author of the longer how-to title, *The New Agritourism: Hosting Community & Tourists on Your Farm*.

Users Review

From reader reviews:

Bessie Papp:

This Micro Eco-Farming: Prospering from Backyard to Small Acreage in Partnership with the Earth book is not really ordinary book, you have it then the world is in your hands. The benefit you obtain by reading this book is actually information inside this e-book incredible fresh, you will get information which is getting deeper anyone read a lot of information you will get. This Micro Eco-Farming: Prospering from Backyard to Small Acreage in Partnership with the Earth without we realize teach the one who looking at it become critical in pondering and analyzing. Don't be worry Micro Eco-Farming: Prospering from Backyard to Small Acreage in Partnership with the Earth can bring if you are and not make your handbag space or bookshelves' turn into full because you can have it in your lovely laptop even cellphone. This Micro Eco-Farming: Prospering from Backyard to Small Acreage in Partnership with the Earth having excellent arrangement in word along with layout, so you will not really feel uninterested in reading.

Jose Laney:

Reading can called mind hangout, why? Because if you are reading a book especially book entitled Micro Eco-Farming: Prospering from Backyard to Small Acreage in Partnership with the Earth the mind will drift away trough every dimension, wandering in every single aspect that maybe unfamiliar for but surely can be your mind friends. Imaging every word written in a reserve then become one web form conclusion and explanation which maybe you never get just before. So now let us explain to you the relaxing pattern is your body and mind will be pleased when you are finished reading it, like winning a sport. Do you want to try this extraordinary wasting spare time activity?

Danny Solberg:

On this era which is the greater man or who has ability in doing something more are more treasured than other. Do you want to become certainly one of it? It is just simple approach to have that. What you must do is just spending your time almost no but quite enough to get a look at some books. Among the books in the top listing in your reading list is Micro Eco-Farming: Prospering from Backyard to Small Acreage in Partnership with the Earth. This book that is certainly qualified as The Hungry Hills can get you closer in getting precious person. By looking way up and review this publication you can get many advantages.

Mary Varnum:

As a university student exactly feel bored for you to reading. If their teacher asked them to go to the library or to make summary for some publication, they are complained. Just small students that has reading's heart or real their pastime. They just do what the teacher want, like asked to the library. They go to at this time there but nothing reading very seriously. Any students feel that reading through is not important, boring in addition to can't see colorful photographs on there. Yeah, it is to be complicated. Book is very important for yourself. As we know that on this age, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. Therefore , this Micro Eco-Farming: Prospering from Backyard to Small Acreage in Partnership with the Earth can make you feel more interested to read.
