**Six thinking hats for schools: 3-5 resource book** By Edward De Bono

Learn to become an excellent lifelong thinker. Six Thinking Hats is a time-tested, proven and practical thinking tool. It provides a framework to help people think clearly and thoroughly by directing their thinking attention in one direction at a time--white hat facts, green hat creativity, yellow hat benefits, black cautions, red hat feelings, and blue hat process. It's a simple mental metaphor. Hats are easy to put on and to take off. Each hat is a different color which signals the thinking ingredient. In a group setting each member thinks using the same thinking hat, at the same time, on the same thinking challenge--we call this focused parallel thinking--a tool that facilitates creativity and collaboration. It enables each person's unique point of view to be included and considered. Argument and endless discussion become a thing of the past. Thinking becomes more thorough. Six Thinking Hats has become a basic 21st Century tool kit for proactive business and education thought leaders, and students--K-12 & Higher Education
